 - Approve for just one year as a pilot program for Modern Languages Department
 - Request for a report that includes feedback from native speakers and non-native speakers, activities that students did together, participation rates, and language gains
- Comments or questions about the 2018-19 Center for Global Initiatives Annual Report
 - None
- Next steps for regional areas of interest:
 - Hold a first lunch coming off the China Goes Global Conference with a BRIEF presentation from Wenxian Zhang about the take-aways from the conference
 - Focus on the Belt and Road initiatives which involves multiple regions
 - Jim will take the lead with support from Valerie and Wenxian
 - Aim for middle of October
 - Similar idea for a lunch with a focus on the Americas and a brief presentation
 - Zack reach out to Nolan to see if he is interested in a presentation with DACA student Italia (sp?)
 - Nolan would need to connect with Jim Johnson to determine dates – aim for end of October
 - Invite folks who responded to the survey and attended the reception and confirm some participants for a specific date, then send out a campus-wide invite to all faculty and staff
 - Have a Global Initiatives Committee member at the lunches to help clarify that our goal is to create connections and encourage regionally focused working groups, initiatives, and/or events that could access potential funding through the Global Initiatives Committee Grants
 - Update the Center for India and South Asia group at the next meeting since they are an active regional interest group
- Promote the definition of global citizenship and the rubric for global experiences and encourage its use across campus.
 - First step: Giselda will seek feedback on the rubric from Nancy Chick and Toni Holbrook by next meeting
 - Will use the rubric for study-abroad program reviews and for review of faculty-led program proposals this year
 - Possibly have committee members work with their departments to use the rubric for something (i.e. course, the major curriculum as whole) and then provide feedback
- Briefly reviewed other Center for Global Initiatives goals that Jim and Giselda will be focusing on over the course of the year and reporting back to the committee:
 - Gather data for recent graduating CLA classes to assess the percentage of students already participating in significant global curriculum and/or programming, determine

approximately what percentage of those students are already engaging in reflection around these experiences, and try to identify students who are NOT accessing opportunities for global learning and/or reflection

- Determine basic principles for setting, approving, and communicating targets for international students and have them approved by the Vice-President of Student Affairs and the Vice-President for Enrollment Management and Marketing. Determine if further approvals are needed.
- Create a Global Initiatives website that will include:
 - Information about the committee and sponsored/supported initiatives
 - Information for students about global learning and engagement opportunities on- and off-campus
 - Giselda is currently working with IT on this
 - Zeynep will send Giselda the link to the faculty grants page so Giselda can make sure the current grant applications are there – once website exists, other grant pages can direct back to the Global Initiatives page.
- Giselda will be teaching an rFLA 300-level capstone course for students who have studied abroad as a pilot course in spring 2020
- Share RIG Data with campus community and/or get Marketing to do a story
 - Aim to also share RIG data with past travel seminar leaders
