### Discussion (chaired by Carlee):

How many funded?

Chris: at least 18. Know no further than that.

When stop ranking?

Chris: if comfortable with top 18, rank the rest.

Top ten first.

Discussion RE funding students to work for free for for-profit institutions

Should companies match funds? Should we not fund them?

What if the company goes to the professor first and then the student?

What about profit sharing between a corporation and Rollins, since it is Rollins's intellectual property?

Solution: We will require that we will only fund if appropriate contracts for profit-sharing and IP in place.

Discussion RE whether to continue if a final project in an initial grant was not successful?

Discussion RE should we include in our consideration whether faculty or students have done the program before? If the project had been begun before?

Discussion RE whether we should fund projects with a strong pedagogical aspect

Discussion RE group projects: should there be a separate pot? Specific totals for ensemble projects?  
Maximum funding? Separate proposals need to be done, complete?

Discussion RE whether we fund if the professor has worked from SFCRG before but not ended with a product?
