ROLLINS RECORD

VOL. VII *Rollins, the oldest College in Florida,
yet with its future all before it.*

No. 1

NOVEMBER, 1933

MEMOS

TWENTY-NINE states and the District of Columbia are represented in the Rollins student body this year. New York sent 58 students, Ohio 31, Connecticut 22, Illinois 17, and Massachusetts 16. Nearly 32% of Rollins students come from New York, New Jersey, and the New England states.

For two years the Rollins varsity football team has gone through the season with an undefeated record. Their opening game this season was with South Georgia State College which they defeated 30-0. Their second game was with Newberry College which they defeated 12 to 0.

Mr. Harve Clemens, Director of the Rollins Conservatory of Music, has announced the first Symphony Orchestra Concert for December 10. The orchestra will consist of more than 60 instruments this year.

The French government has recently presented Rollins with three rare bronze portrait medallions of George Washington, Admiral De Graffe-Tilly and Count De Rochambeau.

ROLLINS 49th YEAR

NEXT YEAR Rollins College will be fifty years old. It has been an heroic half-century of service. This year writes the final chapter in Rollins fifty years of adventure in education. What has the new year to show?

First of all the annual budget of Rollins has been balanced. Unlike many businesses and most colleges Rollins did not "go in the red" last year due to the cooperation and sacrifice made by the faculty and administrative staff—and with the Unit-Cost Plan in operation it is not likely to do so this year. The College is on an economically sound basis.

The coming of Dr. Richard Burton, the noted poet, lecturer, and critic; and Edwin Granberry, the novelist and short story writer, adds two more to the large English staff at Rollins. Mr. Granberry has written four novels of Florida life which have been published in both the United States and England. He also won the O. Henry Memorial Prize for the best short-short story contributed to any American magazine in 1932.

Many new improvements have been made on the campus, and in the fraternity and sorority houses which are now operated as dormitories by the College. The Freshman class as was to be expected, is slightly smaller than last year, owing to world conditions, but its members are of notably high quality. Seventy-five per cent of the freshman class come from states other than Florida.

DEBATING AT ROLLINS

TWO YEARS ago Oxford University, England, sent its debating team to Winter Park for a debate with Rollins. Last year Trinity College, Dublin, honored Rollins by sending its debating team.

Rollins met Oxford University again last year in New York City and won both the judges and the radio decision. Rollins also debated with Yale and put on an exhibition debate at Los Angeles, with the University of North Carolina, winning both decisions.

This year's debating schedule opened October 30th with a debating team from Cambridge University, England, this being their first debate in America. Early next month Rollins will debate in New York City over the N B C network with a team representing the British Universities Debating League. Other Rollins debates scheduled for this year include those with Yale, Princeton, Dartmouth, Hamilton, Colgate, New York University, University of Pennsylvania and Bryn Mawr.

FENCING AT ROLLINS

FENCING is becoming increasingly popular at Rollins. The schedule this year includes bouts with Harvard, Yale, Princeton, Massachusetts Institute of Technology, the U. S. Naval Academy at Annapolis and the U. S. Military Academy at West Point.

Later the Rollins team will meet New York University who won the National Intercollegiate Championship last year.

ROLLINS UNIT-COST PLAN

THE OPERATION of the new and unique "Rollins Unit-Cost Plan" which went into effect last September is opening auspiciously. Under this plan all students who are financially able to do so are asked to pay the actual cost of a year's education at Rollins. This all-inclusive fee covering tuition, room, and board is \$1350.

The introduction of this plan leaves the entire income from the Rollins General Endowment Fund to be used as scholarship aid for worthy and ambitious students who could not otherwise come to Rollins. The large endowments of all our American colleges were originally given by generously minded people for this specific purpose. Most colleges have, however, spread their endowment income over rich and poor alike.

Rollins is the first college to introduce this Unit-Cost Plan and devote all its endowment income to scholarship aid. Any Rollins student may now take without additional tuition or fees, any courses in the departments of music, dramatics, and art. Already a large number of Rollins students are taking advantage of these opportunities which is making Rollins more than ever a cultural college in the liberal arts. Every door of opportunity at Rollins is open to all students equally, regardless of whether their Unit-Cost fee is paid by them, or in part from the income from the General Endowment Fund.

As a part of our physical education program, Rollins students are given memberships in either the Aloma or Orlando Country Club, and supplied with canoes without charge.

ROLLINS INVESTMENT LOAN FUND

Investment Plus Human Service

ROLLINS is still a small College limited to 500 students, many of whom are working their way wholly or in part. These students do not ask charity—only an opportunity to work, or to borrow small sums with which to complete their college education. To meet this need the Rollins Investment Loan Fund has been established.

Under this plan anyone may purchase Rollins Investment Loan Fund Certificates which are issued in units of \$100, \$500, and \$1000 bearing interest at 5%, payable semi-annually on October 1 and April 1 of each year. This money is then loaned in small sums to students at Rollins who could not otherwise continue their college course.

The Board of Trustees at Rollins *officially guarantees* the payment of the interest on these Certificates.

In addition to the usual advantages of a safe investment these Certificates yield dividends of satisfaction in knowing that your money is being invested and reinvested indefinitely in the lives of young people. Other advantages are:

1. Prompt payment of the interest is guaranteed by the trustees of Rollins College.
2. Interest at 5% payable semi-annually.
3. Investors are relieved of the care of frequent reinvesting.
4. Principal is *not callable*, but the Certificates may be sold, used as collateral, or disposed of by will at the pleasure of the owner.

If you wish an ASSURED INCOME plus the satisfaction that your investment is of supreme human service, why not write Mr. E. T. Brown, treasurer of Rollins College, for further information.

THE FOX BEQUEST

ROLLINS has recently received the first payment of \$25,000 of the bequest of Miss Carolina A. Fox of Hillsboro, New Hampshire. Under her will an additional \$25,000 may be received later.

Miss Fox had spent several seasons in Winter Park and was a generous benefactor of Rollins before her death.

SCHOLARSHIPS

IF YOUR SON—or more especially your daughter—were willing to work his or her way through college you would certainly be proud of him—or her. But you wouldn't want him to waste his precious opportunity because he was pinched for money.

If you have no son or daughter in college, you ought to be eager to adopt a Rollins College student who has *the will to get an education* of the kind that makes sons and daughters of America of whom we may be proud.

Wouldn't you like to know the personal history of some boy or girl whom you could adopt for a Rollins College scholarship? Ask Mr. Ervin T. Brown the College Treasurer to tell you.

“Education is only political, industrial and individual safety. Outside the ‘Ark of Education’ all is deluge.”
