 - 1. Follow-up with Giselda to see if there are any issues with funding travel to this region at this time? Noted that there is only a level 1 travel advisory for Japan right now
 - 2. Dr. Brannock cannot use her own start-up funding, so there is no access to the \$1,500

 - 3. Jonathon will follow-up with Giselda to explore funding through International Programs
 - 4. Jonathan will follow-up with student for a more specific budget (airfare, lodging, etc.)
 - g. Do we roll funding over from the pool for graduate students?
 - i. We only have approximately \$2,000 left earmarked for undergrads
 - ii. There is \$31,000 earmarked for Holt and grad students, but it's under the same budget as the CLA funding
 - 1. Nancy is concerned that this will perpetuate perceptions that there are no resources for this student group

2. We need to plan for next year; retain at least half of Holt budget and know that we will only get \$5,800 for CLA next year
3. Rochelle notes that we might run into an issue if grad/Holt students applied and the money has already been spent on CLA students
 - a. Notes that grad students will often ask for international funding, which is more costly
4. DECISION: will use Holt/grad funds for CLA applications that are deemed rigorous, or to be consistent with previously approved apps regarding the same experience

VI. Lost and Found Policy

- a. Campus Safety does not want to be the long-term location
 - i. Norm is that locations like Olin, Bush, classrooms etc. hold for awhile and then send to Campus Safety
 - ii. Is this a requirement?
 - iii. Campus Safety mission statement includes references “recovering lost property”; also in the faculty handbook Section 1: General Information
 - iv. Is Ken Miller aware of this situation?
 1. Nancy will contact him
- b. Perception that they just throw out unclaimed things instead of donating

VII. Crummer on Committee

- a. Nancy is meeting with a student service rep from Crummer to discuss representation on SLC
- b. Global Initiatives and Diversity Council has a Crummer student rep, and are staying on college bylaws

VIII. Discussing Moving to CLA Bylaws

- a. Nancy is concerned with representation of all students if we move under CLA bylaws
- b. Committee is concerned about the way in which service on SLC is perceived
 - i. seems to be informal tiers about what “counts”
 - ii. would have to be codified in T&P criteria
- c. Challenge: we need to address membership to make sure all voices are represented
- d. Nancy views a potential triumvirate of SLC, Diversity Council, and Global Initiatives as having power together
 - i. Can we approve all three of these under the college bylaws at once?
- e. Perhaps we can look at how Global Initiatives and Diversity Council are set up?
- f. Key question: Does Rollins need a SLC committee or does CLA need an SLC committee
 - i. We want to abide by the One Rollins Philosophy
- g. Can SLC be referenced in CLA bylaws, but not as a standing committee of CLA
 - i. just write in ways that SLC communicates with CLA; ways that CLA appoints representatives to CLA?

IX. To Do:

- a. Jonathan—for application Z
 - i. Jonathon will follow-up with Giselda to explore funding through International Programs
 - ii. Jonathan will follow-up with student for a more specific budget (airfare, lodging, etc.)

- i. Will contact Ken Miller to see if he is aware of the situation with Lost & Found—note that their mission and the faculty handbook designate Campus Safety as the location for lost and found; that they should be donating items not “found”
