Data Loss Notification Letter

Dear Rollins Community,

The Student Government Association experienced a data loss during the Vice Presidential transition. The data loss affected the attached legislation. The Executive team was able to recover the original legislation submitted to the senate. Although the attached legislation was submitted to the senate, we are unable to guarantee whether changes were made to the legislation *during* the senate session.

After conversations with the executive team, we are choosing to make the legislation publicly accessible to uphold the Student Government Association's commitment to transparency. Please use the attached legislation as a guiding document for future Student Government Association initiatives.

Thanks,

Niko Ellison | Chief Justice, Student Government Association
