## NO DUES --- NO NEWS?

Here's why. The steadily mounting cost of publishing and mailing THE ROLLINS ALUMNI RECORD makes it a major item in the present operating budget. The annually increasing number who are being sent this quarterly magazine makes it prohibitive to continue to do so unless you are a dues-paying member of Rollins Alumni Incorporated.

College photographer Lyman Huntington's picture of Dan Matthews blowing the bugle for the last time at Rollins, on the cover of this issue, is symbolic. For this, too, is the final call to enlist "subscribers" who find THE RECORD serves its purpose of keeping you periodically informed of Alumni activities, our College, and each other.

A mimeographed newsletter is proposed for a more frequent and economical media of communication with Rollins Alumni, hereafter. Only you who pay your annual \$3 dues now can expect to receive the next issue of THE ROLLINS ALUMNI RECORD.

By adopting this dollar and sense policy, your elected board of directors plan not only to relieve the College of underwriting our Alumni Publications but, as soon as possible, of the cost of maintaining the Alumni House on campus, the salaries of the two full-time workers and all the incidental expenses of operating a good Alumni Office. To operate an active corporation, ten percent of the total annual dues and all Life Memberships in Rollins Alumni Incorporated will be invested as an Endowment Fund and only the interest used to meet operating costs.

Just three dollars (\$3) from each and every Rollins Alumni will provide the necessary funds for our present operating budget.

To date, only 10% of all Rollins Alumni have paid their annual dues to Rollins Alumni Incorporated, yet they have boosted the treasury \$3,081.70 alone. Of these, 7 have joined the nine original Life Members of the Rollins Alumni Association; and 15 have paid the first \$20 instalment, to be continued for the next 5 years, for Life memberships.

Over 50% of the Class of 1953 are already enrolled as active members of Rollins Alumni Incorporated. They will start receiving THE ROLLINS ALUMNI RECORD with their own Commencement issue this summer.

Are you a participating member? We have yet to hear from 4,000 Rollins Alumni who have been receiving this magazine *gratis* in the past. If you haven't yet, send your dues to Rollins Alumni Incorporated TODAY!

## Celebrities Mark Rollins 68th Year

President Hugh F. McKean is proving his own talent for advancing in the tradition of one of his most successful predecessors, the late Dr. Hamilton Holt, in bringing to Rollins College an already impressive number of distinguished Americans and internationally important persons. The impact of personal contact with so many of the famous men and women of their times is a continuous part of the Students' education at Rollins.

On April 26 Sir Gladwyn Jebb, Permanent Representative of the United Kingdom to the United Nations, delivered a searching address on international responsibility and Britain's role in the UN. He spoke at a special Convocation in Knowles Memorial Chapel that morning and was admitted to all the rights and privileges of an honorary Alumnus when Rollins College conferred upon him the degree of Doctor of Laws.

Sir Gladwyn and Lady Jebb were guests for several days in the home of President and Mrs. McKean, who gave a formal Lawn Party in their honor on the afternoon preceding his address at the College.

*Sir Gladwyn Jebb*

Again, thousands joined the College in the Sandspur Bowl for the memorable twenty-sixth edition of The Rollins Animated Magazine, edited by President McKean on February 22. Veteran subscribers for the past quarter of a century to this highlight of the annual Founders' Week celebrations at Rollins College rate this year's ahead of previous issues for all-around excellence.

General Omar Bradley, chairman of the U.S. Joint Chiefs of Staff, Chancellor H. T. Heald of N. Y. University, Ambassador Gaganvihari L. Mehta of India, Dr. John Martin, and Admiral Alan G. Kirk, former U.S. Ambassador to Russia, presented in person their thought-provoking articles. Mr. and Mrs. James E. Hollingsworth, world travelers and civic leaders who have since initiated a fund for a chair of Politics at Rollins, spoke on their adventures in Egypt. There was a sports interview with Chuck Davey, the boxer. Wallace K. Harrison, architect of UN buildings and Rockefeller Center, gave interesting sidelights on these experiences. And Walt Kelly, Cartoonist of the Year, recreated his Pogo the Possum and his friends with keen observations to the delight of the vast audience.

Two of the most stimulating contributors to the success of the 1953 edition of The Animated Magazine were Robert Hufstader, choral director of the Juilliard School of Music, and Dr. Francis J. Thompson, author and professor of Writing at Johns Hopkins University. Both will join the Rollins Faculty next year.

## *Around The Horseshoe*

by Tally Merritt '52

The industrial revolution hit the Rollins Campus recently, and one more person was replaced by a machine. The traditional bugle calls ending and beginning classes have been heard for the last time. Now, from the top of Knowles Hall resound chimes, the gift of the Senior Class of 1952. Gone are the quibbles with differing watches, the campus time has been synchronized to the sound of Big Ben chimes. Now the question, "For Whom the Bell Tolls?" has been answered. It tolls for the entire Rollins Family.

But the addition of chimes is not the only musical activity on campus. The eighteenth Bach Festival reigned supreme on March 5th, 6th, and ended with a student concert on the morning of the 7th. Under the direction of Robert Hufstader, this year's performance reached a high peak of excellence. Peter Gram Swing, assistant director of the Festival and the Knowles Memorial Chapel Choir, conducted regular rehearsals in the absence of Mr. Hufstader who, as director of the Julliard School of Music, commuted between New York and Rollins frequently. Under the leadership of Peter Gram Swing and Sally Monsour, the choir and glee club, recently traveled to Daytona Beach where a two hour program of both sacred and secular music met with the approval of a large audience.

Speaking of Sally Monsour, one has to recall the first theatre production of the winter term. A new play, "Spring For Sure," a musical comedy, under the musical direction of Sally Monsour and theatrical direction of Wilbur Dorsett was hailed as one of the outstanding productions of the year. In fact, for the first time since Dr. Granberry's play, "The Falcon," the theatre was sold out and standing room space was sold. The audience had a good time but it couldn't have been as much fun for them as it was for the cast who really outdid themselves to present a top-rate show.

"The Great Big Doorstep," a Fred Stone production under the direction of Donald Allen met with enthusiastic acclaim by the Winter Park audience.

The Annie Russell Theatre had a special treat on March 2nd and 3rd when the Dublin Players appeared in "Shadow and Substance."

For Founders' Week, Mr. Bailey selected Oscar Wilde's "The Importance of Being Ernest." For this big production of the year, special scenery was built and costumes rented. The play was handled very well by a group of A.R.T. veterans.

Founders' Week, that was the time for our twenty-seventh Animated Magazine. The speakers form an impressive list but it can hardly be as impressive as their contributions to this edition. Alternating between humor and seriousness, given under a blue Florida sky, this issue was a credit to the College. Lester Bowles Pearson gave the address at the Founders' Day Convocation. The Chapel was crowded and all who attended came away with a better understanding of the U.N.

The United Nations calls to mind politics and the Hollingsworth plan to establish a Chair of Political Science at Rollins. Seven thousand dollars has already been received for this achievement in education planned as part of the Diamond Jubilee Celebration.

But what is money without economics? The Economic Conference was held at the Annie Russell Theatre on February 5th and 6th. To draw attention to this year's conference which was devoted to the Florida Cattle Industry, four Brangus cattle were penned up on the lawn of the theatre.

Certainly, anyone passing the theatre on these two days would have been drawn in by these amiable cattle who didn't seem to mind being the center of attention.

Prof. Huntley was the center of attention upon announcement of his resignation from the College. He left to accept a position with the Armour Institute in Chicago. Mrs. Mary Vestal, wife of Prof. Vestal, is now holding forth in Prof. Huntley's place.

In the art world, Rollins is really making a place for itself. Twenty-eight pieces of art by Rollins students and faculty were exhibited in the Argent Gallery in New York, March 23rd to April 11th. Many varieties of art work were shown as Rollins fans fires of interest in the work we are doing down here.

The only fire, however, was not the fire of interest in the art exhibit in New York. We actually had a small conflagration on the campus when a small fire broke out in Cloverleaf in February. Quick action by the fire department kept damage at a minimum, the greatest part of the damage having been done by the automatic sprinkling system which immediately went into action.

And now, with the chime sounding out the end of another class it is time to stop strolling around The Horseshoe and reminiscing about the Winter Term.

## Operation Songlift Mission Accomplished

On December 12 the 25 members of Operation Songlift were given an all-college send-off for their three week's tour of overseas bases, sponsored by the Air Force. Composed of 20 girls, 2 boys, 2 chaperones and Glee Club Director, Sally Monsour, the troupe gave over 30 performances before Air Force, Army, Navy, civilian and native audiences in Newfoundland, Iceland, Bermuda, Westover, Mass., and New York.

In Iceland over Christmas Day, the group was shuttled into Reykjavik, Iceland's capitol, where their rendering of the Icelandic National Anthem was enthusiastically received at The Icelandic Old Folks Home, the T.B. Sanitorium and at the Hotel Borg.

In Bermuda, in addition to appearances at service installations throughout the island, the Glee Club performed before the Governor, His Excellency Sir Alexander Hood, at the Governor's mansion. During this and other performances a Rollins goodwill offering of giant Ponderosa lemons from the groves of President McKean was presented.

Designed as a morale builder for service personnel, the 10,000 mile trip was arranged by the Military Air Transport Service. Following the tour congratulations have poured into Rollins from military officials, servicemen and civilians who witnessed the performance.

At the conclusion of the tour, the group sang before friends of the College at the apartment of President and Mrs. McKean in New York.

# Tars Sweep State In Baseball And Crew

By Jim Jackson

Two State championships and high national rating in three sports gives Rollins Students and Alumni something to crow about this spring. The baseball team dominated the Florida state race and was the South's outstanding independent team; the crew whipped Florida Southern in the State regatta and was second in the Dad Vail at Philadelphia; and, for the seventh successive year the tennis team was among the nation's best, losing only to unbeaten Miami.

In baseball, Joe Justice had what is probably his best nine in seven winning years, including 4 State titles, at Rollins. This season's record (see back page) speaks for itself. But the most thrilling game was the 16-inning 1-1 tie with the Florida Gators, pitched by Freshman leftfielder Art Brophy! The game was called because of darkness.

The overall sports record for the year was 48-29, and prospects for next year are even brighter with Rollins placing 4 Sophomores on the all-State baseball team. They are: pitcher Bill Cary, first baseman Bob MacHardy, second baseman Fred Talbot, and centerfielder Connie Butler.

When the Tars won the State regatta from Southern on Lake Maitland with a last minute stretch drive, both crew coaches agreed it was "the greatest race I've ever seen." Rollins then outclassed everybody but LaSalle at Philadelphia's Dad Vail. Brad had the boys at their peak, and loses only two by graduation this year.

Rollins claimed one more State title at Cypress Gardens in a 5-school water-skiing meet, by placing first in both men's and women's divisions. The Tar team was led by Skillman Suydam, son of Coach Henry Suydam.

## President McKean Visits Active Capitol Club

by Dorothy Aubinoe Griffith '48

The climax of this first busy year for the reactivated Rollins Alumni Club of Washington, D. C., was the recent visit of President and Mrs. Hugh F. McKean. Over thirty Alumni attended the buffet supper, which we held in his honor at the Hotel Dupont Plaza on the evening of March 29. Everyone there seemed to greet our President of Rollins College as their friend, former classmate or teacher.

The many meetings we have had this year have brought us all the thrill of renewing old acquaintances and the pleasure of making new ones. We find that Washington has a special problem in that the membership is so transient. But frequently as we are losing faithful Alums to other localities, we are always welcoming new ones. More than fifty percent of the Rollins Alumni in our area have attended the various get togethers here during the past year.

Our Washington Club has its own constitution and by-laws and approximately thirty active members. The objective this year has been to organize ourselves. We are now prepared to help Rollins on Admissions, Public Relations and in other vital ways.

Our present major interest is in furthering the growth of Rollins Alumni Clubs throughout the country. This was initiated by a request from the Chicago Club for program ideas. A network of Clubs would reawaken the Rollins spirit in Alums everywhere. We could keep in closer contact with each other and our College. And we are eager to coordinate our projects with those of Rollins Clubs in other areas to make our combined efforts most effective for the College.

Next to acting as a selective board to recommend good students to Rollins,

we believe our most valuable service in Washington is keeping an up-to-date card file of Alumni in this vicinity at the Hotel Dupont Plaza. Many Rollinsites stop over here briefly, as they do in New York, and this centrally located directory facilitates their contacting those of us who live nearby. Master lists for these files are compiled by the Alumni Office at Rollins, which is another reason it is important that we report our own changes of address there. In maintaining these files, we save Rollins Alumni Inc. considerable postage by notifying our central office on campus promptly of all the changes of name or address we can check locally.

### MIAMI ALUMNI ORGANIZE NEW CLUB

On the evening of April 17, Mr. Lorin E. Coppock was host to twenty former Rollins students at his home in Coral Gables and they formed a new Rollins Alumni Club.

Joseph A. Friedman '49 was elected president of this latest Rollins Alumni Club to reorganize. Other officers named at this initial meeting were: Virginia Mitchell '29, vice president; Mrs. Betty (Carson) Wales '42, secretary-treasurer; and Robert Wilson '27, honorary advisor.

All Rollins Alumni in the Miami area are urged to contact one of the new officers to enroll as active members of this Club. They plan a dinner meeting next at the Miami Shores Country Club, at 7.00 P. M., on June 12.

### Recent Books by Rollins Authors

"Iron Anvil" by Willard Wattles, Falmouth Publishing House, Manchester, Maine, 1952.

I shall not attempt to say what poetry is, but I can tell where it can be found, and high poetry too, in the bright sparks from Willard Wattles' "Iron Anvil," the new book of poems edited by his wife, Mary, and just off the press. Some of these poems have appeared in magazines, but many of them were left in a drawer in Mr. Wattles' study at the time of his death over two years ago and are made available for the first time in this collection.

"Iron Anvil" has much to offer lovers of poetry anywhere, but for the Winter Park friends of Willard and Mary Wattles and the family of Rollins College, where he was an inspiring teacher for 26 years, the book has a deep and personal interest. "Iron Anvil" takes its name from the opening poem in which the author says that although he "can spin a thread of dreams to weave the cloth of gold," he would rather "shape a sword upon an iron anvil." He has, I think, done both in this volume.

The poems combine vigor and elemental directness with lyric grace and rich implications, a keen joy in the challenge of life and of physical being with an acceptance of death and a sensitive awareness of the world of the spirit. The imagery is remarkable for its clarity, originality, and strength.

William Rose Benet was struck with Mr. Wattles' unusual treatment of religious themes, especially by the poem about the Carpenter who built heaven. In an earlier volume of poetry, "Lanterns in Gethsemane," the poet revealed this trait, and it is notable in "Iron Anvil."

The book partakes of the nature of the man, close to the earth but never very far from the stars. I felt when I went to get "Iron Anvil" from Mrs. Wattles (for old students and friends, this is an especially happy way to

come by it) that being there in Mr. Wattles' study was like having a visit with my colleague whose class room used to be just down the hall from mine in old Pinehurst. I can see him there now in his eerie, a fine teacher, a fine poet, and a fine friend, surrounded by books, students, and blue pipe smoke, one moment cracking his wry earthy jokes with his droll solemn look and the next climbing to high levels of "starry contemplation."

As I said goodbye to his wife, I thought of the closing line of "Hrolf's Thrall, His Song" in "Iron Anvil," "God send true man his true woman." Those who know Mary Wattles feel that God did.

## CLASS NOTES

### GAY NINETIES

Reporter: Dr. Henry B. (Hank) Mowbray, 442 Chase Ave., Winter Park, Fla.

(ED. NOTE: Due to Dr. Mowbray's illness, now, you are all urged to send news of yourselves and each other to the Alumni Office at Rollins and add a word of cheer for him.)

This year the Gay Nineties were honored guests of the Rollins Alumni Club of Central Florida at their annual tea on Alumni Day of the Founders' Week celebration on the campus. Mrs. Rodman Lehman (Katharine Lewis '27) was the general chairman upon this happy occasion and Maud Trismen '51 provided the beautiful arrangements of exotic flowers that decorated the Alumni House that day. Among those who added much to the success of the Alumni Day festivities with their presence were: Mrs. Belle (Birdie) Abbott Roxby, Mrs. Mary Leffler Strong Stella Waterhouse, Gertrude Wilcox, Maud Neff Whitman (Mrs. A. B.), Marian Curtis Robinson (Mrs. B. M.), Jacob Gazan, Dr. Fred Lewton and Dr. Hank Mowbray.

Earlier this winter, Viva Hill Laplan (Mrs. A. O.) motored over from Cocoa, Fla., with friends for the lovely Christmas Service at Rollins in Knowles Memorial Chapel.

A welcome note from Russell Hargrave in Poughkeepsie, N. Y., tells us that he is writing a book on his early Florida memories. Two years ago Russ revisited Rollins and renewed his friendships here.

### CLASS OF 1904

Reporter: Helen Steinmetz, 195 Cortland Ave., Winter Park, Fla.

Florence Robinson Saunders (Mrs. George) visited your correspondent this February. She came up from Ft. Pierce, Fla., for Founders' Week and we took in all the principal events.

Winston Morrow and his wife came over from Deland and we enjoyed a pleasant reunion at the annual tea, given by the Rollins Alumni Club of Central Florida at our own Alumni House on campus, on Alumni Day.

With this issue, I would like to remind you that since the Rollins Alumni Association has been incorporated THE ROLLINS ALUMNI RECORD will go only to members of the Corporation. So, if you want to hear from us in the future, send along your \$3 membership dues to Aurora and at the same time send a bit of news about yourself and your family that we may all keep up with you.

### CLASS OF 1907

For the past 8 years she has been Librarian and English teacher at the Boca Grande High School. Two attacks of flu have prevented her revisiting Rollins yet, but she says she hopes to be able to get over to the Alumni Office soon.

For the first time in many years this reporter had an opportunity to

renew acquaintance with some of his friends still at the College and had his first glimpse of the Alumni House last fall, while on a short trip to that part of Florida.

#### CLASS OF 1918

Reporter: Anne C. Stone, Stonehurst, Winter Park, Fla.

It is a joy to receive letters from former classmates, especially when they contain such happy news as one recently from Mildred Pearce Winfield (Mrs. James). Mildred thoroughly enjoys life in St. Augustine, to which she moved one year ago. Her letter included an account of the wedding of her daughter, Mildred Lewis Winfield to Charles Edward Little of Massillon, Ohio, June 7, 1952. The young couple are now living in Portsmouth, N. H., where Mr. Little is a physicist with the Hopkins Engineering Company.

If you would like to have more news of former classmates, please write or type an account of your latest activities, and remit to your class scribe. The latter is concerned lest you miss an issue of the RECORD, so don't delay in forwarding your dues and thus doing your share to increase the effectiveness of Rollins Alumni Inc.

## WPRK

by Ben Aycrigg '49

**Good Music** in the evening's best listening hours with no commercials! That's what WPRK, Rollins' new 10 watt educational FM station means for Winter Park. From 7:00 until 11:00 every evening, music in all its forms—from folk to symphonic—is sent by high fidelity FM to receivers in Winter Park and Orlando homes. "Thank God for Rollins College," wrote one WPRK listener last December, when the station opened. "It is very pleasant to know that there will be something really worth while listening to now," penned another. How many of these listeners we have, we don't know; but during the peak winter-visiting months, in some stores the demand for FM sets couldn't be met.

**NAEB Tape Network** and BBC programs have injected a quality and prestige to our programming not possible for a beginning small college station a few years back. Over 80 U. S. educational stations regularly send the cream of their offerings to NAEB (National Association of Educational Broadcasters) headquarters at the University of Illinois. Here the outstanding programs are selected, duplicated on magnetic tape, and mailed weekly to all member stations. The BBC (British Broadcasting Corporation) sends us recordings of virtually uncut Shakespearean plays (unheard of in American commercial radio), other dramas, fine music, and talks.

**Three Complete Concerts** by the Florida Symphony Orchestra were recorded by WPRK microphones; the Bach Festival was broadcast directly from the Chapel. Rehearsals of both were aired, with WPRK listeners "eavesdropping" on conductors Yves Chardon and Robert Hufstader! Students recorded the CBS broadcast of the Bach Festival which you heard coast to coast March 14.

**A Volunteer Student Staff** runs the station. One student writes eight classical music programs a week! Students financed and broadcast the two Rollins-University of Florida baseball games direct from Perry Field in Gainesville on April 28-29, as well as broadcasting all home games direct from Harper-Shepherd Field. Faculty members select and comment on symphonic, operatic, chamber, lieder, choral, and folk music every night at 9:00. Others participate in discussions, interviews, and science programs.

**Our American People Touch Cultures** every week with the peoples of England, France, Holland, and Norway through the media of tape recordings, transcriptions, and educational radio stations. Here is the dramatic start of another way to peace through cultural understanding.

We wish to express our heartfelt sympathy to **Diane Wilson Armitage** (Mrs. Walter W.), whose husband passed away February 22. Di will continue to make her home at 235 E. 57th St., in N. Y. City.

Lew '38 and Vi (Halfpenny) Wallace paid Rollins a fleeting visit en route north from seeing his parents, Glancy '11 and Marjorie (Blackman x12) Wallace, in West Palm Beach in April. They had just driven around the Gulf from Mexico, where Lew has been a plant manager for Celulosa Nacional for the past year, and stopped to see George Fuller '39 in Mobile, Ala., and the Nelson Marsh-

alls in Tallahassee on their way into Florida. They anticipated seeing Lew's uncle, Berkeley Blackman '07, in Jacksonville next and George Waddell '38 in Ohio before returning to Mexico. We hear that Minter Westfall and his wife have a new son too, born in December, but don't know his name yet. Minter is Ass't. Prof. of Biology in the College of Arts and Sciences at the Univ. of Fla. in Gainesville.

Dean and Betty Lee (Kenagy) Voegtlen joined the happy ranks of young parents last October 3. Betty Lee writes: "David Dean was born with a philosophic frown—didn't seem to think much of the world as yet, in spite of the happy results of the election which, we assured him, would greatly improve his chances of a solid and solvent future. Although our suburbs are solidly Republican, I managed to scare up a troop of Democrats with which to enliven things 11 days after the Great Day. The Jack Coopers '48, Dick Gertner, Bette Stein and Bev. Ott '48 made the pilgrimage to the wilds of Orange (N. J.) in honor of Dan Paonessa, up from Pompano Beach, Fla. In spite of great discord over politics and music—the latter schism sending the lowbrows to the kitchen radio while the highs listened to Brahms in the living room—a properly good time was had by the hosts, at least. And David had the good sense not to peep in the presence of such an un-baby-minded crowd." A more recent card from Betty Lee adds that her husband has accepted a job with Hughes Aircraft in Culver City, Calif., so they're moving in April. "But FIRST," she says, "we're coming down to Florida for a week, arriving May 3!"

OCS and Joel Hutzler x54 was up for

return to Rollins as soon as possible  
so he can complete work for his de-  
gree.

Josh and Ginnie (Gold) Poole an-
