Prexy's Message to Us

Our Alumni Secretary, who can never be disobeyed, asks me to send a brief personal message to our former students to be printed in the March issue of the RECORD. I suppose this is because I presented my resignation as President of Rollins to the Trustees at the annual meeting on February 21.

I had offered my resignation last summer to take effect at the pleasure of the Trustees, but I said if I could have my wish I would like to come back for this year and devote most of my time to the curriculum, faculty and students rather than to raising money, and then some time this year we could take up and decide my future relation to the College.

The Trustees graciously permitted this and so now, having reached the age of seventy-five (five years beyond the Biblical deadline of three score and ten) I felt this year was the time to resign. Although the Trustees appointed a committee last summer to select my successor, and advisory committees from the faculty and alumni have been added to confer with them, they have asked me to come back at least for the academic year 1948-49 when they hope to have my successor appointed. I have accepted this appointment and suppose, therefore, next year will be my last year here.

Rollins seems to have passed through two main stages in its history and is now entering the third stage. The first stage was the pioneering years of building up from nothing the first institution of collegiate rank in Florida. This was the era of heroic self-sacrifice and the era of faith, hope and (naturally) charity. The second stage began when I came here in 1925 and ends with the conclusion of World War II. In this period we have made some important and forward looking contributions to academic procedure, and have erected some twenty-five buildings and raised over \$5,000,000.

MARCH, 1948

The Rollins Alumni Record, March, 1948. Published Quarterly by Rollins College in March, June, September and December. Office of publication: Alumni House, Winter Park, Florida. Entered as second-class matter June 28, 1938, at the post office at Winter Park, Florida, under the Act of August 24, 1912.

Dr. Holt with Honorary Degree Recipients at Mid-Winter Convocation. Left to right: Rev. Henry M. Edmonds, former dean of Knowles Memorial Chapel; S. Kendrick Guernsey, president of Rotary International; Gen. Jonathan M. Wainwright; President Hamilton Holt of Rollins; President Sarah Gibson Blanding of Vassar; Thomas J. Dodd, U. S. Chief Counsel at Nuremberg Trials; and Dr. Alberto Lleras Camargo, director general of the Pan American Union.

ROLLINS CELEBRATES 63RD ANNIVERSARY OF FOUNDING

Internationally known participants and some memorable occasions distinguished the 1948 observance of Founders' Week at Rollins.

An estimated 8000 subscribed in person on February 22 to the *Animated Magazine* in the familiar Sandspur Bowl. In editing his 21st volume, President Hamilton Holt burnished the luster of his already brilliant list of contributors with: S. Kendrick Guernsey, president of Rotary International; John R. Mott, Christian Leader and Nobel Prize Winner; Thomas J. Dodd, prosecutor of the Nazi High Command at the Nuremberg Trials; Sarah Gibson Blanding, president of Vassar College; Soo Yong Huang, noted actress and monodramatist; Alberto Lleras Camargo, director general of the Pan American Union and former president of the Republic of Columbia; Roy Crane, creator of "Buz Sawyer" and "Captain Easy"; General Jonathan M. Wainwright, hero of Corregidor; Edwin Mims, author of *The Advancing South* and *Adventurous America*; Claude Pepper, U. S. Senator from Florida; Wu-Chi Liu, professor of Oriental Culture at Rollins; and Albert Kennedy Rowswell, Public Relations director for the Pittsburgh Pirates. Subscribers

contributed \$4,092.10 toward scholarships for veterans who are now students at Rollins College.

Early next morning the College and its honor guests assembled in full academic dress to march across The Horseshoe to Knowles Memorial Chapel for Founders' Day Convocation. Many recall the pageantry and solemnity of these occasions with the inspired singing of the Chapel Choir. But those present this day heard 2 men speak whom they may never forget. One was Thomas J. Dodd urging the strengthening of the United Nations to enforce international law as the "best promise for peace yet offered." The other was General Wainwright's first recounting before an audience of his experiences in the Pacific War.

The honorary degree of Doctor of Laws was then conferred on: President Blanding of Vassar; Dr. Lleras Camargo, director general of the Pan American Union; President Guernsey of Rotary International; Mr. Dodd, U. S. Chief Trial Counsel at the Nuremberg Trials; and Gen. Wainwright. Dr. Henry M. Edmonds, former dean of Knowles Memorial Chapel, received the honorary degree of Doctor of Humanities.

Most universally heartwarming award of the day was the bestowing of the Sullivan Medallion on Mrs. Willard A. Wattles — "for those enduring qualities of mind and spirit: reverence, humane understanding, good will, courage and unselfish devotion to others." President Holt said in part: "Mary Brownlee Wattles, wife of a Rollins professor whose place in our hearts is strong, you also have won the admiration of the Rollins family, not solely because you are a superlative gardener — not because you make the best waffles in Orange County, but rather because you are a woman of transparent goodness of spirit . . . No worthy cause in community or college calls on you in

Mrs. Willard Wattles.

vain . . . Your sense of loyalty, your affection — all the more strong for not being lightly displayed . . . have mightily endeared you . . . Rollins students, and particularly your Kappa Kappa Gamma sisters, will long remember those little acts of kindness and love which are the spontaneous expression of a nature as life-giving as the Kansas prairies from which you spring. In you we see the strength of the pioneers, the salt of our American earth. May this award be a constant reminder of our deep admiration, and may it always recall to our minds the qualities that we cherish in American womanhood."

The newly completed Sullivan Memorial Building, between Carnegie and Knowles Hall, was dedicated immediately following Convocation. Mr. Wm. E. Bardusch, president of the Algernon Sydney Sullivan Foundation of N. Y. City, spoke at these exercises.

Trustees Create Permanent Chair As Weddell Memorial Elect Dr. Hanna First History of Americas Professor

President Hamilton Holt has announced the establishment of a Weddell Professorship in History of the Americas by the Board of Trustees of Rollins College as a memorial to Mr. and Mrs. Alexander W. Weddell. The Chair will be permanently endowed with a \$100,000 bequest left to the college by Mr. and Mrs. Weddell upon their tragic deaths in a train accident near Otterville, Mo., on January 1, 1948.

The College Trustees have elected Dr. A. J. Hanna, Professor of History and Director of Inter-American Studies at Rollins, to the newly created Chair.

Former U. S. Ambassador to Argentina and to Spain, Mr. Weddell was instrumental in organizing with Dr. Hanna and Professor Angela Palomo Campbell the Inter-American Center of Rollins in 1943. Rollins conferred an honorary degree of Doctor of Humanities on Mr. Weddell in 1947. He was also a distinguished contributor to the *Animated Magazine* last year.

One of the first of its kind to be endowed in an American college, the Weddell Professorship will be devoted to the teaching and correlation of courses covering the history of the Western Hemisphere. Dr. Hanna has been teaching a number of these courses at Rollins and this undertaking should serve to continue and achieve those objectives to which Mr. and Mrs. Weddell devoted so much of their wealth and time.

Dr. Hanna was graduated from Rollins in 1917. He has since been a member of the administrative staff and faculty, with time out for service in the first World War and for graduate study at the University of Madrid in 1931 and the University of Mexico in 1934. In 1945 he received an honorary L.H.D. from Rollins. His numerous historical books and monographs are listed with his other accomplishments in *WHO'S WHO OF AMERICA*. In 1946 he did research in Mexico and travelled in Guatemala, Panama, Columbia, Venezuela and Cuba.

Throughout Founders' Week "The Glass Menagerie" played to full houses at the Annie Russell Theatre.

The Conservatory presented music students in recital on February 20. There were continuing exhibits at the Beal-Maltbie Shell Museum; and prints from 18 Central and South American countries, loaned by IBM, were displayed at the Casa Iberia.

One of the most notable offerings of the season was handsomely exhibited Georg Jensen silver, ceramics, Orrefors and Steuben glass, textiles from the Scalandre Museum, Whiddicomb furniture and choice pieces from other special collections at the Morse Gallery of Art.

Mid-winter events closed with the 13th annual Bach Festival in Knowles Memorial Chapel on the first week-end in March. Music critics pronounced this performance of the 150 voice Bach Choir the best since the festivals were started in 1936.

Around The Horseshoe

by MARY MALTA PETERS

1948 burst upon the campus in a veritable shower of stars! Leo G. Carroll started the parade with "Angel Street." The theatre had hardly cooled when Buddy Ebsen starred in "The Male Animal." Buddy was most enthusiastic about his student supporting cast. Then came the Economic Conference with its collection of nationally prominent businessmen . . . students closed the session with their debate on the Taft-Hartley bill.

KA's and Theta's were congratulated on their undefeated basketball seasons. Runnersup were X Club and the Freshman Girls. Crew Intramurals ended in a three-way tie: Delta Chi, KA, and Sigma Nu.

Annual scholarship cups were awarded to Gamma Phi (they made it five in a row) and Delta Chi.

Orlando Radio Station WHOO started a series of campus quizzes, with various campus groups in friendly competition . . . Prepared for questions on the "undergraduate level," first week's contestants were stunned to hear, "Where is the Sargasso Sea?" The audience was further stunned to hear it answered correctly.

Doubleday recently published graduate student Martin Dibner's first novel, *The Bachelor Seals* . . . NEWSWEEK calls it, "competent, well paced, and quite moving"; and the N. Y. TIMES says of Dibner, "He can write powerfully about the people and places he has known."

Bill Shelton '48, another World War II veteran, won the Gen. Reeves Oratorical Contest this year. Bill's short story, *Snow Girl*, won the \$2500 ATLANTIC MONTHLY prize last spring and has just been selected to appear in the O. Henry collection of short stories for 1947.

Alpha Phi "Magnolia" MacDonald and X Clubber Cecil van Hoose were crowned King and Queen of Hearts at the Kappa Valentine Ball in Sanford, February 14. Lambda Chi "Foots" Brumley immediately announced his candidacy for constable of that city. He claims there is no connection. . .

Edited by Ann Craver, the '47 TOMOKAN was announced as one of three Rollins publications awarded prizes for excellence by the American College Public Relations Assn. FLAMINGO publication continued on its one-a-term cycle. Innovations under Editor Zoe Weston include a \$5.00 prize each issue for the best short story, article, and poem. Sandspur editor competition held the spotlight all winter term. Candidates from KA, Pi Phi, Kappa and Chi O each edited 2 issues. KA Pete Sholley won in a third and close student poll.

In spite of a floor that has so deteriorated that intercollegiate basketball has had to be suspended, "Rec" Hall rang with the cheers of student and alumni enthusiasts on February 20. Coach Justice corralled enough former Tar talent on campus the night before Alumni Day to meet the second team of the Intramural All-Stars. It took time out to catch their breaths and frequent substitutions, but the Old Salts defeated the scrappy Tar hoopsters in a tight 36-35 thriller. On the winning team were: Buck Johnson '40, Freddie Caldwell '44, Tim Tyler '47, Buddy Bryson '47, Ed Jones '43, Kermit Dell '45, Ed Acree '47 and Joe Justice '40.

Bob Hayes, retiring president of the Alumni Association, presenting President Holt with a portable radio from Rollins Alumni at the Annual Luncheon. Jack Howden, master of ceremonies, joins in the general laughter at Prexy's remark: "Now I can listen to my favorite program It Pays To Be Ignorant!"

February 21 marked the reactivation of ODK . . . Dean Stone, Don Vincent, Howard Bailey, and Judge Cheney were tapped from the faculty; students Bob Ferguson, Student Council President Dick Every, Herman Goodwin, Bill Rinck, Joe Masters and Gordon Tully were honored. The last 4 listed were selected for Who's Who, as were Eleanor Holdt, Mary Clair Upthegrove, Zoe Weston and Alice O'Neal.

Tennis Prof Eddie Copeland was ranked sixth teaching pro in the nation by the Lawn Tennis Assn., no surprise to those who have watched his students in the assorted tournaments. Student golfers held their own in the Golf Championship at Dudsread Country Club.

The X Club and Theta collaborated on the highly successful Rose Ball, also at Dubs. . . next dance was the Lambda Chi Costume caper. . .

Founders' Week production, "The Glass Menagerie," featured Professor Nina Oliver Dean and a student cast. . . next was "The Barretts of Wimpole Street". Animated Magazine contributors Jonathan Wainwright, Thomas Dodd, et al, attracted scores of listeners for both the Magazine and the Convocation. Selection of Mrs. Willard Wattles for the Algernon Sidney Sullivan medallion brought as much pleasure as Prexy's decision to resign in '49 brought sadness.

TAMPA ALUMNI MEET AND TAKE PART IN AAC INTERCOLLEGIATE OPEN FORUM

Delegates from over 35 southeastern college and university members of the American Alumni Council met in Tampa, Fla., the first week-end in February for the annual District III Conference. Rollins was represented by Alumni Secretary Aurora McKay, who was booked as a group discussion leader on alumni magazines.

As a feature of the full schedule, time was allotted on the evening of February 2 for individual alumni group meetings preceding an intercollegiate Open Forum. Rollinsites gathered at 6:00 p.m. for an informal dinner in the Cricket Room at the Bay View Hotel.

Old and new Rollins friends met in the lounge and were greeted by Aurora McKay '30. Founders' Week programs were distributed with a cordial invitation to return to the campus for Alumni Day on February 21.

Seated around the Rollins table were: Rev. and Mrs. Allen Bartlett; Jean and Ruth (Smith) Yadley; Mr. and Mrs. Cappy Graham; John and Helen (McKay) Martin; Mrs. Mary Shepherd Huffstutler; Ruth Spruance; Nonita Cuesta; Dr. Alvord and Ruth (Waldron) Stone; Mrs. Jim Wishart (Edna Wells); and Aurora McKay.

Allen Bartlett '28, who is the new Assistant Pastor for the First Methodist Church in Tampa, asked the blessing.

The College colors were featured in a large floral centerpiece; and ingeniously carried out in each course, delightfully climaxed with pineapple parfaits topped with azure tinted whip cream.

Rollins alumni joined the other college groups at 8:15 p.m. in the University of Tampa ballroom. National President of the American Alumni Council, Kenney Ford of Kansas State College, welcomed 550 alumni present for this event. And Vic Davis, University of Tennessee Alumni Secretary, conducted the Open Forum.

Dr. Alvord L. Stone '22 served on the official panel for Rollins and several of our Alumni contributed from the floor to the forum discussion on "The Making of a Good Alumnus."

The University of Tampa, host to the 1948 convention, served chilled citrus juice at the close of the evening.

AROUND THE HORSESHOE

(Continued from page 7)

At the Southeastern Forensic Tournament at Hickory, N. C., in March Rollins students received the following awards: Joe Friedman, first place in Public Address and second place in Radio Newscasting for Men; Madge Martin, second place in Poetry Reading, Radio Newscasting for Women and After Dinner Speaking; and Mary DeLano, second place in Problem Solving.

Townpeople and Faculty combined talents March 18, 19 and 20, to present "The Man with the Iron Fang" or "Skinlock Bones on the Spot," a subtle (but not TOO subtle) 'Mellodrammer' by Miss Winifred Gwyn-Jeffreys at the Annie Russell Theatre. It was good fun for the benefit of the Annie Russell Theatre Improvement Fund directed by Howard Bailey. Students, Faculty and Staff enjoyed a command performance on St. Patrick's Day.

By all rights, a year that burst upon us ought to fade out gently; looks like this one is gathering momentum as it goes along. . .

Ed. Note: Professor Flora Lindsay Magoun has our deepest sympathy in the loss of her mother on February 28. Mrs. Magoun immediately enplaned for her parents' home in N. Y. City, but has now returned to Rollins and we hope will resume writing this feature in our June issue.

Rollins Faculty officially attending the inauguration of President J. Hillis Miller at the Univ. of Fla. in Gainesville early in March, were: President Hamilton Holt, representing Rollins; Dr. Norman E. Gilbert, representing Dartmouth; Dr. Theodore Collier, representing Hamilton College; Dr. Rhea Marsh Smith, representing Southern Methodist Univ. of Texas; Dr. James H. Russell, representing Allegheny College; and Dr. G. Willard Freeman, representing Kenyon College. Mrs. A. B. Minor, Rollins Associate Librarian, attended the Southern Library Conference at Gainesville that same week-end.

Dr. Edward Mims, former visiting professor of English at Rollins, repeated his fine series of assembly talks for students by popular demand this winter in the Annie Russell Theatre. Dr. Mims, professor emeritus of Vanderbilt Univ., was head of the English department there for many years. A distinguished lecturer and writer, he is a recognized authority on American and Southern literature. This term he also gave a series of 4 lectures on modern English and American poets as part of the Rollins College Adult Education program.

Librarian Horace A. Tollefson's article on the Reid library circulation system in the February issue of LIBRARY JOURNAL has brought him many interested inquiries from readers of this leading magazine in that field. Among those who have requested complete information are: The State Library of New Hampshire; Limestone College of South Carolina; Atlanta University; and the Tulane University Library. Mr. Tollefson, in charge of our Library since September of 1946, says the Reid one-card system "is working as efficiently at Rollins College as it has at much larger Ann Arbor."

Dr. Herman Siewert, Knowles Memorial Chapel organist, has been presenting organ vesper services on Wednesday afternoons during the winter term, with several alumni and students appearing as guest artists.

Dr. Helen Moore, professor of Piano, was saluted by Orlando's new radio station WHOO with a program on Sunday, January 4, and was presented with an orchid. Dr. Moore has carried a heavy schedule of recitals in the Winter Park-Orlando area during the winter term, and left early in March on a concert tour of North and South Carolina.

Miss Mabel Ritch, contralto and professor of Voice, offered her annual faculty recital early in March, as well as another program in Mt. Dora in February.

William B. Whitaker, associate professor of Speech and Radio, acts as moderator on the Rollins Radio Forum which is broadcast weekly from Dyer Memorial Building over WHOO. Each broadcast features special guests as members of the panel.

Members of the Rollins Faculty have spoken at a variety of meetings: Dr. A. J. Hanna, director of Inter-American Studies and professor of History, on "The Redemption of Lake Okeechobee, Center of a Kingly Domain" before the Florida State Chamber of Commerce in St. Petersburg, and on "Economic Factors in the Opening of the Lake Okeechobee Region" before the

PREXY'S MESSAGE TO US

(Continued from page 2)

No world can go through such a war as our last one without being profoundly changed in the political, economic and moral sphere. Men over fifty (certainly men over sixty), with the rarest exception, ought not to attempt to lead the College with these perplexing new issues before them, for those men had their opinions and ideals pretty well fixed before the war started and will be unable in most cases to readjust themselves to the new forces which the younger men understand better than we do. So I hope my successor will be under fifty, as will the majority of the professors, and that the alumni under that age will unite with them in making the third stage which Rollins is now entering far superior to the two preceding stages.

I know that the curriculum of Rollins fifty years from now will be as different from our present curriculum as our present curriculum differs from the one of fifty years ago. But I know that if the Trustees of the Rollins of tomorrow place the emphasis first on personalized education and regard the chief function of a professor is to teach well and respect and love his students, I have no expectation that any of you will hear a creaking sound as I turn over in my grave.

It is a wonderful privilege for any man to be employed in a profession where the human contact predominates. I regard the personal contacts and friendships I have been privileged to make with the former students that I have known here and in after life, as one of the great joys of my life, and I hope that when I do retire, not to *otium cum dignitate* (for I want to wear out rather than rust out) I shall keep in touch with all of you whose friendships have ever been such a blessing to me.

The Rollins English department paid tribute to Constance Fenimore Woolson, distinguished author and poet, at a tea given in Woolson House in Jan-

uary. Dr. Fred Lewis Pattee, professor emeritus of American Literature, spoke of Miss Woolson's place in American literature with emphasis on the Florida scene.

Dr. George Saute, director of the Institute of World Government at Rollins College, was named director at the Florida Branch of United World Federalists Convention held at Rollins in January.

PRESS PRAISES ROLLINS WRITERS

Lake Okeechobee by A. J. and Kathryn Abbey Hanna. Published by the Bobs-Merrill Co., 1948.

Well documented with bibliography, maps and photographs, this regional history is receiving favorable comment from the national as well as state press.

Dr. Hanna '17 needs no introduction to RECORD readers as a thorough historian and author. His wife, Dr. Kathryn Abbey Hanna '47 (HON.), was head of the History Department at the Florida State University in Tallahassee for 15 years and is Chairman of the State Library Board. Both are recognized scholars and writers of successful books of historical merit. Their skill is combined for the first time in this recently published history of the second-largest fresh water lake wholly within the United States just north of the tropical wonderland of the Everglades for which it forms the wellspring.

"The Hannas move quickly through the Indian pre-history and the early Spanish history on the edges of this area," says the reviewer in the N. Y. HERALD TRIBUNE of March 7. "Their best work begins when they record the penetration of these hushed and jungle-veiled shores by the first white Americans. . . . It makes a packed, concise record of human activity, of American adventurousness in a strange land of shifting waters and jungles and beaches and saw-grass, of sudden storms and raging hurricanes . . . (they) have here produced the finest research and compilation job in their individual or their combined careers. . . . The book becomes the basic work of historical and contemporary reference for the entire area of inner Florida."

Excerpts from THE N. Y. TIMES BOOK REVIEW section of the same date read: "They have given us a fascinating view of a region which has had more than its share of ups and downs — where now, a great agricultural empire is slowly developing to its full stature. For this they deserve the thanks of the Floridians who know and love this strange and incredibly rich section. The general public will find in this account a store of important information, told in a manner that makes excellent reading."

THE CLEVELAND PLAIN DEALER, TAMPA SUNDAY TRIBUNE and BALTIMORE NEWS-POST are equally laudatory in appraising this recently published ninth volume in The American Lake Series edited by Milo M. Quaife.

An editorial in the ORLANDO MORNING SENTINEL of March 19 declares: "*Lake Okeechobee* is not only first class recreational reading but priceless as a reference volume. It should be required study for every citizen of Florida. . . . The research done by the Hannas is obviously extensive. The finished product serves to tie together many documents and opinions from a variety of sources over the years and presents the conclusion with admirable objectiveness."

In Memoriam

Mrs. Magne Kjellesvig (Trina G. Gonzalez) died on July 20, 1947, at Chevy Chase, Maryland. Mrs. Kjellesvig attended Rollins during the Gay Nineties. She is survived by her husband, six children and eight grandchildren.

CLASS NOTES

Gay Nineties

Secretary: Rev. Henry B. Mowbray, 442 Chase Ave., Winter Park, Fla.

On the afternoon of February 21, 1948, early Rollins students gathered for the tenth year at the home of your correspondent for our traditional Gay 90's Tea. Pink table and house decorations were pleasant reminders that Oleander Pink was the Rollins color for its first 10 years of existence.

Last June graduates, Joan Sherrick and Betty Lee Kenagy, presided at the tea table appropriately gowned in Gay 90 dresses from the Annie Russell Theatre wardrobe.

Mrs. Frederick L. Lewton of Wash., D. C., whose husband was a charter student at Rollins, and Rodman and Kay (Lewis) Lehman also assisted me in the hospitalities for this occasion.

Attending this annual Alumni Day event were: Mrs. W. B. Ballard (Marion Coombs), John D. Evans, Jacob Gazan, Mr. and Mrs. S. Waters Howe, Miss Hattie and Mrs. Florence Hudson, Ira J. Johnston, Dr. and Mrs. Frederick L. Lewton, Miss Minnie Moreman, Mrs. John Neville, Miss Anna Rand, Mrs. B. M. Robinson (Marian Curtis), Mrs. Belle Abbott Roxby, Mr. and Mrs. F. W. Shepherd (Gertrude Funkhouser), Mr. and Mrs. C. Fred Ward (Clara Layton), Miss Gertrude Wilcox, Mrs. A. B. Whitman (Maud Neff) and Alumni Secretary Aurora McKay.

Miss Grace V. Wakelin of Tavares motored over to the campus for the annual meeting in the Alumni House and Luncheon in the Rollins Center.

Dr. Frederick L. Lewton, Local Arrangements Committee Chairman, presided at both afternoon and evening sessions of the Florida Audubon Society in the Annie Russell Theatre March 6.

Mrs. A. B. Whitman served on Dr. Lewton's Committee for this oldest conservation organization in the State of Florida.

Miss Gertrude Wilcox was the house guest of Dr. and Mrs. Whitman in Orlando during Founders' Week.

Another refreshing card this January from Paul Patton Faris reads: "In order to set at rest the fluttering spirits of the Laguna Beach Postoffice, do let me inform you that my address has been changed to 699 Griffith Way, Laguna Beach, Calif. You may have heard that houses have been hard to obtain. Yes, even out here. So we built a small house on a hillside among hills, but overlooking the sea very pleasantly, and for a month have been settled in it (I wish the bills on it had been settled also!). The December issue of THE ROLLINS ALUMNI RECORD is crammed with interest throughout its 36 pages. Thank you and congratulations."

Class of 1907

Secretary: Berkeley Blackman, 2669 Boulevard Dr., S. E., Atlanta, Ga.

Don Cheney attended the Southeastern district meeting of the American College Public Relations Assn. in Atlanta, Ga., early in January.

Being officially connected with the College, Judge Cheney took part in all alumni

activities during Founders' Week and was re-elected to the Executive Committee of the representative Alumni Council. He was chairman for the dedication of the newly completed Sullivan Building on campus.

Class of 1915

Katherine Doggett Grissett (Mrs. Finley), her husband and their youngest child, Priscilla Ann, returned to the mission field last June. They now live in Lolodorf, Cameroun, West Africa.

Class of 1918

Secretary: Anne C. Stone, Stonehurst, Winter Park, Fla.

Elizabeth Russell Fuessle (Mrs. Kenneth) is receiving favorable comments on her recent publication, *Professional Growth on the Job*. The book, which is published by the Family Service Assn. of America, is a guide for the public assistance worker and is being used by private agencies, probation officers, the Red Cross, etc. The author has tried to translate into terms that any intelligent person can understand the basic principles of case work. Jane Hoey, Director of the Social Security Administration, writes that it is a "real contribution to the field and we are proud to have it. We shall recommend its use. . . ."

Elizabeth continues with her work in the N. Y. Dept. of Welfare and is at present Case Supervisor in Welfare Center 53, which covers the entire Borough of Queens and a part of Brooklyn. Congratulations, "Sunshine," on the good work you are accomplishing!

Winifred (Tiny) Hanchett, formerly Mrs. Frank Cameron MacCardell, arrived just before the Christmas holidays for a winter vacation in Florida. Revisiting the Rollins Campus for the first time in many years she was enthusiastic over its development and increasing beauty. Her son, Cameron Huntington MacCardell, is now attending Rollins for his second year. Her

brother, Huntington Hanchett, earned his degree at Rollins in 1932. And her father, the late Dr. Henry G. Hanchett, both taught and gave recitals at Rollins. An internationally known organist and pianist, Dr. Hanchett was cofounder of the American Guild of Organists.

Not much news this time—how about getting in some about yourselves?

Dickie Dickson Colado (Mrs. Guy), Anna Van Nest Wood (Mrs. Wallace F.) and yours truly seemed to have had to hold up the honor of the Class at the Alumni Day and Founders' Week activities. You missed a real treat by not being present at the Alumni Luncheon when Prexy was honored. Better start planning right now for next year and don't forget to put a big red circle around that date 4 years hence when we shall be celebrating our 25th Reunion. Remember—send in your suggestions for that big event either to Dickie or to me.

The only other item I know is that Billie Freeman Greene (Mrs. Raymond W.) is touring around South America. She is painting and lecturing on flower arrangements before Garden Clubs.

Syracuse still holds Mazzie Wilson. A card from her states that she's "busy splashing in the academic pool and trying to tame a group of potential female citizens . . . 'tame' is truly a better word than train." From which we gather Mazzie is getting some good training herself!

Hurray for Clementine Hall Kastendieck! She and husband Miles received a double blessing on January 26 when Richard Merwin and Jon Gaylor arrived in their home. Little Carol Elizabeth is in seventh heaven with 2 "just alike" brothers.

A letter from Bob Pepper tells us that in addition to his work as News Editor of the Ft. Myers News Press, he is also publicity director of the Thomas A. Edison winter home in Ft. Myers. This 5 acre estate was recently opened to the public, and among many of the interesting features is the "Walk of Friendship" including a stone from the home of our own Prexy.

"The mountain comes to Mahomet" or something like that is what happened to Central Florida. We who couldn't go to New York to see Buddy Ebsen had the privilege and pleasure of seeing him on the stage of the Annie Russell Theatre in "The Male Animal" this January. It was really a wonderful and exciting occasion, and we predict an even bigger and better future for Buddy behind the footlights.

Our classmate, Bernhard Siegel, will be remembered by many as an exchange student in 1928-29. Bernhard returned to Germany and earned his Ph.D. at the Univ. of Hamburg. He was married in 1938 and has 2 children.

Martha Schanck Persons '30 shares with us this recent news from Bernhard.

"Wolfgang, who is nearly 5 years old, is very lively and has much charm, so everybody loves him. Vera is a diligent school-girl and a busy doll-mother, who cares very well for her little ones. (She is 7.) They get along together pretty well especially when making whoopee in the evening . . . are happy with their playmates and quite healthy. Vera even more than Wolfgang who almost died of diptheria when 2½ years old. An operation, which caused an ugly scar upon his neck, saved his life in the very last minute. Later my wife, Amelie, and then myself caught this devilish disease, but overcame it fairly well without operation and scars. It's very sweet of you to offer your help . . . I must confess that conditions of living in Germany are dreadful. Can you imagine to get along with normal rations of 6 ounces of fat, 8 ounces of sugar and 12 ounces of meat a month, little blue milk but for children below 6 years, no fruit, no vegetables, no tea, no coffee, no coal? And this month in our region there is no meat, no sugar, no fat on sale. Due to heavy taxes there is nobody able to have a net income of more than 1,000 marks a month—(that is 3

pounds of fat or 2 pounds of coffee bought at the black market). No wonder that theft and robbery have become quite popular with bad effect on the morality of the youth."

"Murph" Race Harris (Mrs. Dick) has already sent Bernhard "wonderful letters and heavenly packages." For those who wish to follow suit, here is his address:

She writes from The Playhouse in Albany, N. Y.: "Our season has been extended to 26 weeks instead of the original 18." Nancy broke all records doing "Personal Appearance" for 2 weeks. The house was sold out for the entire run and the last night, Saturday, they had to turn away 1400 people from the Box Office!

News from George H. Rogers tells us that he is Headmaster of Hollis High School, Hollis, N. H., and was in the Army 5 years. He is married and has a son, George William, 3½ years old. That's a very cute age—how about a snapshot of little George?

I spoke at their recent Regional Convention (on International Trade—imagine!), am International Relations Chairman for the Westwood branch, and have been asked to act as Chairman of Economics for the whole Los Angeles League. He's a long way from Chemistry (earned his Masters in that in 1940 there), but is pleased just the same. From 1941 to 1945 he worked on atomic bomb research, with 6 months at Oak Ridge. We gather that Bill is in the business of building and maintaining "particle accelerations" such as cyclotrons, synchrotrons and linear accelerations. For your benefit (don't understand it), Bill is now working on the preliminary designs of a 10 billion electron volt proton acceleration, to be known as a Bevatron. He expects to be in Berkeley fairly permanently since the Bevatron will take at least 5 years and \$20 million to build.

In spite of the fun I'm having, I am still planning to get out our class directory. Newly elected Vice-President of our Alumni Association, Wendy Davis, shared our regret that he could not attend the Annual Meeting on campus this year. The Westinghouse Radio Stations, Inc. (MBZ-WBZA) keep him busy. Wendy says: "Being the first station in the Boston market to provide television service, I find myself with more requests for publicity on the new medium than it seems one hard-pressed tub thumper can handle. In addition, we are building a new radio-television center, with plans of moving in to the new building around June 1. This, too, calls for extra effort. I find that being a member of the Naval Reserve doesn't lessen the days activities either." A valuable member of the new representative Alumni Council, Wendy enthusiastically adds: "In the meantime, here I am in this frozen north — awaiting orders. You name it, and we'll give it our best effort."

Babe Smith Dowlen (Mrs. Leonidas) writes from Coral Gables: "My days are crowded with agency and club work — mainly Children Service Bureau, a Community Chest Agency, and Junior League and Medical Auxiliary board meetings. Interspersed Bud and I play golf at the Riviera, a fine new country club."

Betty Tuttle and Robert F. Lyman were married February 13, 1942, and have 2 children, Helen Todd, born August 16, 1944, and William Tuttle, born November 2, 1945. They make their home in Crooked Creek, Alaska, and Betty writes interestingly: "Living at our quicksilver mine 25 miles from the nearest town — a small native village of 5 people — with which our only means of communication is airplane or radio, no road. From November, 1946, until October, 1947, I didn't see another woman. Isolated, but I like it. As I write there is already 18 to 20 inches of snow and the temperature is -20°. Perhaps we'll have another winter such as the last when we had 27 consecutive days where the thermometer read -50° or colder. Any of you in Winter Park want to change places?"

There are 475 paintings by artists from 36 states on display."

She writes: "I am a member of a group running a tea room, the proceeds of which go to support a bed in the Stanford Convalescent Home for Children of underprivileged families. So I serve lunch one day a week. I am a member of a painting class and the president of a Woman's Auxiliary in All Saints Epis-
