The ROLLINS ▼ ALUMNI RECORD

The ceremony of breaking ground for the Student Union and Alumni Building.

ROLLINS COLLEGE
WINTER PARK, FLORIDA
HAMILTON HOLT, PRESIDENT

OFFICE OF THE PRESIDENT

June 20, 1941

Dear Friend of Rollins:—

The Student Aid and Building Campaign went "over the top" on the deadline date of June 5th. Just one hour before the Commencement Convocation a devoted friend agreed to guarantee the remainder necessary to close the Campaign.

Hundreds have made donations. Many have given unsharingly of time and energy as well. We shall probably never know the number of that Legion who could give nothing tangible and yet who used every opportunity to say a good word for Rollins.

To all this host I wish to give my personal as well as my official thanks.

Backed by such a vote of confidence and supported by the \$200,000 worth of new assets, Rollins hopes to go forward, and in the days and years to come render an increasingly valuable service to this community, the state and the nation.

Gratefully and sincerely yours
Hamilton Holt

Campaign Goes Over the Top

COMMENCEMENT DAY, June 5, was truly a Victory Day for all Rollins. The \$200,000 campaign for scholarships and to erect a Student Union and Alumni Building went over the top in a dramatic fashion at the eleventh hour. When Commencement Day dawned bright and clear, we were about \$11,000 short. The fatal hour was nearing. At the right minute a generous anonymous donor agreed to close the campaign and to personally guarantee the balance provided it was not subscribed in the course of the next few days. About \$4,000 came in later which meant that this friend who had saved the day, had to put up a little less than \$7,000.

The announcement was made by Prexy at the Commencement Exercises in the Knowles Memorial Chapel and immediately following these exercises the academic procession went to the site where the new building will be erected. Here brief ground-breaking ceremonies were held. President Holt presided and accepted the building from Mr. Brown who presented it in the name of the anonymous donor. Mr. W. R. O'Neal spoke for the Board of Trustees; Dean W. S. Anderson for the faculty; Deans Marion Cleveland and Arthur Enyart, student deans; Miss Marjorie Weber for the Women's Association; Mrs. Rodman J. Lehman for the Alumni; Judge Donald A. Cheney for the parents and Dudley Darling, the only student present of the student committee organized back in 1938, representing the students.

Construction has already begun and it is hoped that the building will be completed by Homecoming this Fall.

New French Building

IN AN impressive ceremony which was a feature of the Commencement Week program, ground was broken May 31, for the new French Building. The new building is a gift of Mrs. Homer Gage of Worcester, Mass., daughter of the late Francis Bangs Knowles, a founder, trustee and benefactor of Rollins.

The new building, which will house the French department, will be of Mediterranean type architecture, to conform with the other new buildings on the campus. It is to be U-shaped with an open patio facing the lake. There will be a spacious living room, 20 by 30 feet, with a mezzanine library and four classrooms, three with private offices for the professors' use in accordance with the Rollins conference plan of study. The fourth classroom will have a combination office-bedroom which shall be used as a guest room for visiting French professors or lecturers.

Construction has already begun down on the lake behind the Freshman girls' dormitory and it has been announced that the building will be read for occupancy on October 1, when Fall classes begin.

Commencement

ABOUT 7 o'clock on the morning of June 5 the seniors and their hosts, the alumni, gathered under the Family Tree for Breakfast. This annual event proved a huge success and after consuming all the eggs and bacon Fleetwood Peeples had fried, everyone left for Knowles Memorial Chapel and Rollins' 52nd Commencement.

The Honorable Charles O. Andrews, senior Senator from Florida, was the principal speaker and later in the ceremony was given the honorary degree of Doctor of Laws.

Chapman Lawton of Orlando, prominent athlete, received the 0000 Honor Award for his contribution to the spirit of leadership and cooperation in the student body, and Betty de Giers, Forest Hills, New York, received a similar award presented by the Order of Libra, women's honor society.

Bachelor degrees were conferred upon 74 seniors; 64 receiving bachelor of arts degrees, 8 bachelor of science and 2 bachelor of music degrees. The seniors represented 18 states, 2 foreign countries and the District of Columbia.

The Algernon Sydney Sullivan Medallions, bestowed on behalf of the New York Southern Society to two seniors possessing outstanding character, went to Frances C. Montgomery of Montclair, New Jersey and to Dudley Darling of Pleasantville, New York.

Rollins Decorations of Honor given in recognition of "distinguished service to Rollins," were awarded by President Holt to one member of the staff, Mr. George Cartwright, Sr.; two members of the faculty, Miss Gretchen Cox and Dr. Wendell C. Stone; and to two alumni, Mrs. Lillie Drennen Davis and Dr. Fred P. Ensminger, both of Birmingham, Ala.

In conferring the award to Mrs. Davis President Holt said: "Lillie Drennen Davis, daughter of Rollins, worthy matron of the South, devoted wife, sister, daughter, for your ceaseless efforts in promoting, organizing and leading in the intellectual, emotional and spiritual appreciation of music, I take pleasure in conferring upon you the Rollins Decoration of Honor and admit you to all its rights and privileges."

To Dr. Ensminger, Dr. Holt said, "Fred Patterson Ensminger, teacher, preacher, social service worker, in many positions of trust and honor, whether the going was easy or rough, you have been a loyal, cheerful, efficient worker. Like your pilgrim forebears, you have been more interested in men than money. Few, if any, Rollins alumni have excelled you in being a useful American citizen. Your Alma Mater takes pride in your useful and distinguished career in which you have always upheld her 'fair unsullied fame.' I take pleasure in conferring upon you the Rollins Decoration of Honor and admit you to all its rights and privileges."

Delta Chi Comes

To Rollins

ON MAY 28 Sigma Phi Omega, local social fraternity on the Rollins campus, became the thirty-sixth chapter of Delta Chi, national. Delta Chi, was originally founded as a legal fraternity and has a membership of about 12,000. The Rollins group was the second to be granted a charter in the last six years.

Mr. Russell McFall of New York City, also an attorney, and prominent in Inter-Fraternity circles was on campus to assist in the induction. Mr. J. Owen Reynolds, attorney of Lexington, Kentucky, and a past member of the executive board of Delta Chi and Mr. John B. Harshman, attorney of Dayton, Ohio, retiring national president, were also on the campus for the installation. Mr. Charles Honig, Delta Chi travelling secretary, spent several days on the campus preceding the installation helping the boys with their final preparations.

Concluding the two days of installation activity was a banquet which officially ushered Delta Chi into the Rollins family.

The following boys were initiated: Julian Brewster, Greenwich, Conn.; Manny Ehrlich, New York City; Carl H. Fowler, New York City; Clayton Grimstead, Eustis, Fla.; Maurice Hinshaw, Fern Park, Fla.; Gerald B. Knight, Jr., Orlando; Edward Lott, Brooklyn, N. Y.; Rankin Shrewsbury, Winter Park; Lamar T. Education for Defense at Rollins

WINSLOW S. ANDERSON, Dean of the College

THE Selective Service Act and the program of national defense place very definite responsibilities upon the colleges of the nation. Rollins early recognized this fact and with the opening of the college year steps were taken to establish certain special courses under the general heading, "Education for Defense." Various divisions of the College were asked to report concerning the courses which each would be prepared to give. No attempt was made to reorganize the curriculum, the main object being to offer special short courses which would help students to prepare for service in the military branch which most appealed to them.

At first it was thought that these courses would be without college credit but, after consideration, the faculty decided that the material offered was important enough to be equivalent to courses in the regular curriculum. Students, therefore, registered for the courses in the customary manner and credits were recorded in the Registrar's Office.

The Civilian Pilot Training Program of the Civil Aeronautics Administration was and still is of major importance. This training, which includes 72 hours of ground school and from 35 to 45 hours of flight instruction, is considered equivalent to one full course. The program is operated in cooperation with the Orlando Air School at the Orlando Municipal Airport. Although last year the training was purely civilian in character, this year it is frankly military.

The fall session began in October and was completed in January. A second session was started in February and ran to June. Rollins made an enviable record, for every student who completed the training passed the C. P. T. examinations successfully and received a private pilot certificate. The College also sponsored a summer program last year and plans are now being made with the C. A. A. to offer the training again this summer.

Alumni may be interested to know that in 1939, under the direction of Captain Glen C. Cole of the U. S. Marine Corps, Rollins established the short wave amateur broadcasting station W4GMN, located in Knowles Hall. The idea was conceived by Professor E. F. Weinberg who did so much to start WDBO in the old days. Under the direction of Professor Weinberg, assisted by Captain Cole, whose daughter is an undergraduate at Rollins, and M. K. Harmon, Jr., '42, a special class in radio communications was organized and continued throughout last year. The course was designed to prepare one for a Class B amateur radio operator's license, upon the receipt of which Rollins students received seminar credit. People outside the College were admitted upon payment of a small fee. At one time, as many as seventy were enrolled. A large contingent of both officers and enlisted men from the Orlando Air Base were students in this class.

Our Department of Astronomy, under Dr. Phyllis H. Hutchings, established a special one term course in Navigation. The textbooks included material used in the

training course which is given to Naval Reserve Midshipmen at the U. S. Naval Academy.

During the spring term the Art Department offered a course in Camouflage, using a special army air corps confidential text procured from the adjutant general's office in Washington. The class completed a special project in local camouflage with the cooperation of photographers from the army air base in Orlando.

Courses in first aid were given on the campus by the American Red Cross during the Fall and Spring terms to both men and women. Students receiving Red Cross certificates were granted seminar credit.

It is planned next year to continue some of these courses and to expand them. We hope also to offer a special curriculum designed to fit students academically for meeting the requirements for reserve commissions in both the army and the navy.

President Roosevelt, upon several public occasions, has indicated that the first obligation of college students is to fit themselves for the highest type of service and that they should not leave college to enter the military service — if they can avoid doing so — until they have finished their work for a degree. Thus Rollins is cooperating with the Association of American Colleges by offering these special defense courses and encouraging our undergraduate men to complete their college education.

(Editor's Note: In addition to his college duties Dean Anderson is Chairman of the Extracurricular Activities Committee of the University and College Department of the State Defense Council of Florida and under his direction the colleges and universities of the State have and still are carrying on a campaign for the promotion of the sale of defense bonds and stamps. Despite the fact that the sale of stamps and bonds came at the end of the college year, in some cases colleges were already closed, it was estimated that approximately \$20,000 had been sold due to the activities of this committee).

Robert Stephens Promoted

LATE in March Robert Stephens, A.B., '31, was elected Assistant Treasurer of the Guaranty Trust Company of New York City. Previous to this Bob had been connected with the business development department of the Bank. When Bob entered the bank back in 1932 he was connected with the Foreign Department. In 1937 he was transferred to the Business development department.

The Guaranty Trust Co. is the largest trust organization in the world and the largest banking house in the United States. Congratulations both to the Bank and to Bob.

Gulielma Daves—Designer

By Donald S. Allen

OF ALL the students whom I have had in my course in Scene Design none has achieved the distinction that Gulielma Daves has recently won by her outstanding ability as a designer and her capacity for hard work. The complete satisfaction that Gulielma has given in her work is attested by her recent appointment as the designer for the Cleveland Play House for next season. That is a fine achievement. In the twenty-five years that the Play House has been operating as a community theatre this is the first time that it has given a woman the position of designer. Gulielma is thrilled, naturally, at the prospect of the new responsibilities and is to be congratulated upon her success.

Those of you who were in college with Gulielma will remember her devotion to the theatre and her diligence in fulfilling every task assigned to her. I am glad to have an opportunity to report her theatre experience since her graduation from Rollins in 1936.

In 1937 Gulielma had her first summer theatre experience. That year she was the designer and technical director for Reginald Goode at his theatre in Clinton Hollow, New York.

Gulielma was brought back to Rollins at the beginning of 1938's Winter Term as an assistant in the Dramatic Art Department. Because of her natural enthusiasm and willingness to work, as well as for her pleasing personality, she was a decided asset to the department.

The following September Gulielma entered the nationally known Cleveland Play House as a member of the Student Staff. Incidentally she was the seventh Rollins student to be accepted at that theatre. Sarah Luce, Elfrieda Winant, Theodore Ehrlich, Alberto Warren, George Call, and Frances Hyer had preceded her there. Soon after her arrival the directors were impressed with her ability as a designer and technician. Before the Play House season was over, a request came to the theatre for a designer to substitute for the regular technical director at the Old Fort Theatre in Fort Wayne, Indiana. Gulielma was chosen and sent as the pinch-hit designer. Fortunately for her, the man whose place she was taking did not return and his position was given to her permanently. Each new play that had to be designed added experience to Gulielma's already abundant versatility.

The next summer found Gulielma and the director of the Old Fort Players organizing a summer theatre of their own. It is called the Theatre of the Dunes and is located at Beverly Shores, Indiana. Gulielma expects to be there again this summer.

This past year Gulielma was again called back to the Cleveland Play House. There she was appointed designer and technical director of the Children's Theatre, a branch of the Play House. Combined with her job in the Children's Theatre she was given the opportunity to design settings for two plays that were produced by the staff of the regular producing company at the Play House. All this experience coupled with her sincere enthusiasm for the theatre have led Gulielma Daves on to her newest of jobs—that of Designer for the Cleveland Play House.

Mrs. George H. Davis (Lillie Drennen) and Dr. Fred P. Ensminger, both of Birmingham, Ala., just after receiving the Rollins Decoration of Honor at Commencement Exercises held June 5.

Alumni Library

Two new books were added since March to the shelves of the Alumni Library. Not many, but those two are most interesting.

Personal Exposures was sent by the author, Rex Beach, '97. This is his autobiography and is one of the most fascinating and interesting books we've seen in a long time. No review could do it justice so we advise one and all to secure a copy and enjoy a good story. It has been included in the Book Section of the *Readers Digest*.

On the last page of *Personal Exposures* Mr. Beach promises another autobiography in ten years for he's off on another scheme and he is sure there will be some more good stories of adventure to tell. We'll be looking forward to the new autobiography, Mr. Beach!

Chosen by the Junior Literary League is Elvira Carter Garner's new book *Way Down in Tennessee*, published by Julian Messner, Inc., of New York City. This is a story of a year of Patsy's gay times on a plantation with her pets: Old Bill and the colt, the ducks, Augustus, the houn' dog — the forty-'leven cats and kittens that kept collecting, — and especially Satan — that one-eyed, mean-looking alley cat who was closest to Patsy's heart. There is Bob Taylor — a loud-crowing, scraggly rooster whom Patsy also loved dearly; and the new mule they bought in Knoxville.

There's a hilarious chapter, too, about one very objectionable pet — a little black-and-white "kitty" — which somehow got into Mother's quilt-chest! And last, but not least, the baby lambs, who grew too soon to be sheep.

Way Down in Tennessee is illustrated as only Mrs. Garner can illustrate — which should be enough to send you straight to the book store!

Mrs. Garner says: "I hope all the children who read this will love the circle of friends and pets around Patsy the year she was eight. She loved them . . . I know, because I was Patsy."

They will — not only the children but the grown-ups as well.

"Exclusive Management"

Listed under the "Exclusive Management" by the Forum Lecture Bureau, Inc., of New York City is our own Maruie Dreicer with the following notation: "Expert on Radio Forums; originator and director of 'Where Are You From?' program and 18 other current weekly features. The foremost Idea-Man of Broadcasting."

Other well-known Rollins friends listed are Roger Shaw, trustee and Joy Homer, daughter of Dr. and Madame Homer.

William B. Feakins, Inc., list Arthur Guiterman, Hon. '40 and Kismet Sirri Sanli, exchange student at Rollins from Turkey 1930-32.

Three Seniors Receive Fellowships

THREE members of the Class of 1941 have received Graduate Fellowships in their particular field.

Maurice Hinshaw whose home is in Fern Park, has been awarded a two-year Fellowship for graduate study at the Oregon Cooperative Wildlife Research Unit at Oregon State College in Corvallis, Ore. Maurice received one of ten such research units set up by the U. S. Government at state colleges and universities and it is an honor which is coveted by students of biology the country over. His first year, which will begin on August 1, will be spent in the field on research problems for the Unit, during the second year he will study for a master's degree in Fish and Game Management at Oregon State College. Upon receiving his M. S. degree Maurice plans to go into the U. S. Government Department of Fish and Wildlife Service under the Department of Interior.

Robert Stonerock of Longwood is the recipient of one of the four fellowships offered by the University of Tennessee to the United States at large for graduate work in accounting. The fellowship covers a period of three terms, which in addition to a fourth term, fulfills the requirement for a Master's Degree. Bob has been active in many extra curricular activities on the campus.

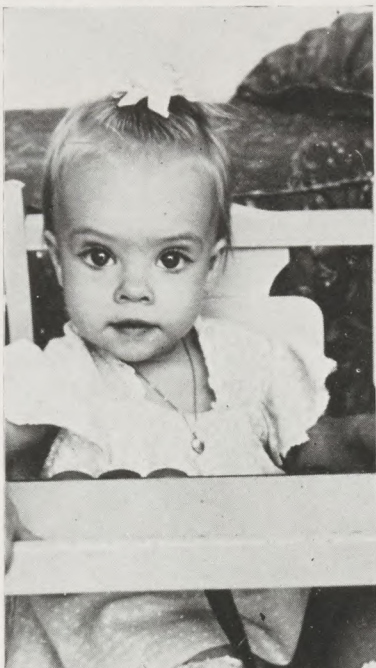

Donald Cram, of New York City, a chemistry major, has been awarded an assistantship in Chemistry at the University of Nebraska and at the same time will begin work on his Master's Degree. He expects to go on eventually for his Ph.D.

Isidor Philipp To be at Rollins

PRESIDENT Hamilton Holt has announced the appointment of Isidor Philipp, the eminent French pianist and pedagogue, as visiting professor of piano at the Rollins College Conservatory of Music during the winter term next year.

Mr. Philipp, who has come to this country at the age of 78, a refugee, will hold a master class in piano on January 15, 16 and 17, and will be available for private lessons from January 5 to March 19. His master class will be concerned with Interpretation and Pedagogy, Dr. Holt stated.

In France, Mr. Philipp had been a professor of piano at the Conservatory of Paris for 32 years at the time of his departure. He was also president of the alumni organization and of the faculty of the institution. In 1922, with Walter Damrosch, Mrs. Randall McIvor and Charles-Marie Widor, he founded the American School of Music and Arts at Fontainebleau, and for twelve years was head of its music department. Faculty members of the Rollins Conservatory, who have been his pupils at Fontainebleau, include Walter Charnbury, Helen Moore, and Emelie Sellers Dougherty, of the piano department.

THE CONFERENCE PLAN

NEEDS STUDENTS

Only Prof. Wattles, his books and his pipe will be left in this room in Pinehurst next year. New faces will gather about the Rollins Conference Tables. You must know of a young man or woman who would get more from the Conference Plan. *Tell him about Rollins. Tell our Admissions Office about him.* Under this "workshop" plan of active participation by each student is the chance of a lifetime for young people who must choose a college. Through YOUR help this "Experiment That Has Proved Itself" will prosper and serve youth.
