issue six: the perverse

We have taken it upon ourselves to pick the locks and prop open the portals. We the compulsive, we the metaphysic, we the escapists salute the unmeasured and unmentionable. Within these pages, you will see the light that shines from the beyond, from writers addressing the “immature,” “dirty,” “tarnished,” “ruined,” “neglected,” and “beyond resolution.” **The perverse:** the manifestal writings of those who stand up on behalf of the secret parts of ourselves; the queer arrangements of saucy and subtle dealings; the appreciation of all that is helter-skelter and jarring; the celebratory, sometimes indulgent, worship of imagination and all its various mixtures of nefarious funk.
