

Amusement Parked

the medication yelled the rows of course

enough to make them color
cried scraps in handsome uniforms
making rollercoaster nightlight
mercifully glimpse hidden battle

despite isolated daylight
operations increase complex need

making the roller coaster file for additional info

hard gun attached discount coupon
taking enough medication readers
out of water able to pass dowry

relatives force controlled exchange
to ride upon the gate and corn the farm

after the gate disclaims most magnificent city

clerks inquest coming mood
regurgitation prompted hardest
clutching the cyclone borders
distributed by eating colors

hinting provincial opportunity over again
